

English

This half term, we will be creating a narrative and a formal report based on our space themed books. This will include using modal verbs and noun phrases as well as using dashes and brackets to show parenthesis.

Maths

This half term we will be focussing on our place value knowledge, which will include reading and writing numbers up to one million. We will also start to explore the four operations.

Computing

Children will be creating an interactive presentation on the Solar System which includes talking avatars, hyperlinks and green screened videos and images. As part of online safety, they will look at what is appropriate to share online.

Science

This half term we are exploring Space! We will be learning about our solar system, including how the planets move, the moon and why we have day and night.

YEAR 5 NEWSLETTER

PE

PE will take place on a Monday. Children are to come in their PE kit every Monday.

RE & PSHE

Our RE topic is Judaism. We will be exploring the question: what can we learn from the ways Jews treat their scriptures?

In PSHE, we will be looking at ourselves, our relationships with others and how we can effectively communicate.

Art

Children will be exploring artists' use of mixed media to create and landscapes before creating their own pieces of artwork inspired by this.
